"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected Cocoa, Mr. Epps has provided for broken breakfast and supper a deliciously flavoured beverage which may save us many heavy doctor's bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.

NEWS FROM THE COUNTRY

WILTON.

Communion services will be held in the Presbyterian church Sunday afternoon. No service in the evening.

Sunday morning, Nov. 5th, quarterly meeting will be held at Violet, in consequence of which there will be no service in the Methodist church here on that morning.

The Free Methodist quarterly meeting will also be held on that Sunday. The Methodists expect to hold their annual social on the evening of Thanksgiving day.

Mrs. Sanderson is visiting friends in Picton.

Messrs. W. and D. Babcock and Milton Parrott are attending the Chicago Fair.

Mrs. Wm. Ovens has returned from a month's visit in Napanee.

Visitors:—Mr. and Mrs. W. R. Gordon, Mr. and Mrs. McLaughlin, Napanee; Mr. and Mrs. A. Irish, Morven; Mrs. Vanluven, Murvale.

—Fresh Oysters at Davis'.

NEWBURGH.

Mr. Charles Watts, of Odessa, is visiting friends here.

Miss Lucy Murphy has gone to Rochester, where she has secured a good situation.

On Thursday night last two of our would-be-dudes (Will and Ed) got left at Napanee Mills in trying to secure girls after the concert.

Mr. J. P. Moore has purchased a fine black horse formerly owned by J. R. Scott.

Miss Guess, of Sydenham, has been visiting at Mr. Arthur Dickinson's the past few days.

It is a well known fact that some of our young ladies have got acquainted with our public school teacher at last.

Mr. Thomas Murphy, who has lately returned from Strathroy with the fever is dangerously ill.

Husking bees are the order of the day and the boys have taken advantage of them all, but Hilt's first one.

DESERONTO ROAD.

After the heavy wind and rain of Saturday and Sunday the fences are in a bad state. The patent fences had to go with the rail fences; it was the worst storm for some time.

Fall grain is looking fine after the frequent rains.

Mr. Thomas Oliver, of Napanee, formerly of Chicago, spent Sunday with his parents, Mr. and Mrs. A. Oliver.

Mr. Wm. Brown has moved into his new house.

It is reported that Mr. Austin Kimmerly has a fine crop of potatoes; he is among the few this year.

As there will be a scarcity of feed with the farmers this winter some of them are busy cutting marsh hay and laying in a good supply.

Mr. Alfred Keech intends moving next week to his new home. It is reported that he intends having a plowing bee when he gets settled and give the boys a bid. No doubt but what they will all turn out; a half-dozen pieces of pumpkin pie and cider would not go bad at this time of the year.

—A Railway Manager says: "In reply to your question do my children object to taking Scott's Emulsion, I say No! on the contrary, they are fond of it and it keeps them pictures of health."

TAMWORTH.

Mr. Editor, —Allow me a few lines

he is unfitted to fill the position on account of age, but because several heeler who have borne the brunt of battle for years are clamoring for reward. Politicians are a unit in expressing the opinion that J. H. Metcalfe, M.P., will get the plum. That James is anxious to retire from active political life is no secret. He is astute enough to know that the close fight with Alexander Gunn in a bye-election is a sure indication of a popular desire for his retirement. Mr. Metcalfe has not had a roseate experience since entering the federal arena. It is a notorious fact that several times has his will clashed with that of the local executive committee and this friction has caused James to sour on the men "who put their hands in their pockets during the campaign." One prominent conservative, a lawyer, and a member of the executive stated in a bookstore last week, that if Metcalfe secured the nomination again, he would run as an independent and thus split the party. The vacancy may not occur until after the next election, but if James Metcalfe's claims are overlooked watch out for squalls! The important fact of a possible Liberal success and the consequent retention of Mr. Layell or the appointment of a Liberal should be an incentive for immediate action.

So They Changed the Subject.

"Well, by George!" he said to a fellow passenger on the rear platform of a Baker street car, "but of all the outlandish hats I ever saw on a woman, that takes the cake! I mean that woman near the front door on the right."

"Yes, she looks like a fool!" replied the other.

"The idea of a woman 40 years old getting such a hat as that must make all her relatives tired."

"Yes, it probably does."

"I wonder if she has any idea how homely she is?" continued the first who seemed greatly put out.

"Not a bit of it. She imagines she's real pretty and stylish. That sort always does."

"Pretty! Stylish! Why, you might travel for a month and not find another such homely woman, and as for her style she looks as if she had come out of the woods!"

"Yes, you are right."

"If my wife was such a chrono as that I'd leave her. Even the children grin as they look at her."

"Her husband has threatened to leave her, but it did no good," quietly replied No. 2.

"Oh, then you know him?"

"Yes."

Here occurred a painful pause, lasting a full minute, during which the two men avoided looking at each other. Finally No. 1 made a great effort, and said:

"Maybe you are the husband himself?"

"Yes, I'm the one," answered No. 2, "and if it won't make no difference to you we'll change the subject and talk about the weather. Do you think we've had rain enough for corn and potatoes?"

But No. 1 saw a man on the corner who owed him \$2 or something or other and hurriedly jumped off to collect it and get down a side street.

MUCH CHEAPER TO BUY.

What It Costs to Put Up Your Own Fruit These Hard Times.

"I want you to figure a little for me," said a Second avenue wife to her husband as she brought him pencil and paper.

He looked at her suspiciously as he made ready, and a close observer would have noted signs of grim determination around his mouth.

"I want," she said, as she looked into the far-away purple sunset, "about two bushels of peaches."

"Yes."

"And one of pears."

"Yes."

"I might possibly get along with half a bushel of plums, but I want at least a bushel of Siberian crabapples."

"Anything else?"

"Oh, yes! I must have citrons, tomatoes, cauliflower and cucumbers."

"I've got it down, but where does the figuring come in?"

"I want you to figure, as near as you can, on the cost of all these, together with ten dozen glass cans, a bushel of currants, and fifty tumblers, with sugar, vinegar, and spices enough to preserve all the fruit."

He was a lightning calculator. In 30 seconds he had added up a column of figures, tacked on 10 per cent, for his commission, and multiplied the total by two to cover breakages.

"What?" she gasped as she received the paper and glanced at the figures—"you don't mean \$3225.40!"

"Certainly I do," he replied as he picked up his newspaper again.

"But we can't spare that to put up sauce for the winter."

"Just as you think. We can sell our home for \$5000 and put \$2225.40 into preserves, or we can keep our house and fill the vacuum with prunes and evaporated apples. Go over the figures for yourself."

She took the paper and began to figure on her own account, but after raising the total \$875 she went out into the kitchen and told the girl that as there would be no doing up fruit this year she might have a week's vacation.—Detroit Free Press.

At Mr. Justice Gray's Expense.

Attorney-General Olney tells the following story about Mr. Justice Gray of the United States Supreme Court. Judge Gray prefers riding to walking and a carriage or cab to a street-car. When he first held court in Boston, he asked the United States marshal to provide him with a carriage to transport him from his hotel to the court and back to the hotel after the day's session. The marshal was commendably prompt and cheerful in complying with the wishes of the distinguished jurist. From Boston Judge Gray went to Providence to hold court. He asked the United States marshal there to provide him with a carriage to carry him back and forth. The marshal said he could not do so without paying for the vehicle out of his own pocket.

"Why, how's that?" exclaimed the astonished jurist.

"The department would not allow the account, and I'll have to pay it," explained the marshal.

"But the marshal at Boston furnished me with a carriage and had no trouble with his accounts," said Judge Gray.

"I don't see how he did it," protested the Providence marshal. "I know if I tried it that item in my accounts would be disallowed."

"Very well," said Judge Gray. "Of course, I don't want you to pay for my carriage," and he paid it himself, and the incident closed so far as he was concerned.

Not so with the Providence marshal. He wrote to the Boston marshal and asked him how he had managed to have his charge for a carriage for Judge Gray's use between the hotel and the court house allowed by the department here.

"Easy enough," wrote the Boston man in reply. "It's plain," he continued, "that you've not been marshal long. I provided Judge Gray with a carriage, and my accounts went through the department without any trouble. You see, I put the item of the judge's carriage under the head of 'care and transportation of prisoners.'"—Washington Post.

KINGSTON.

Political circles were enlivened this last week by the holding of a convention to nominate a candidate to contest Kingston in the interests of the conservative party at the next local election. This is the result of the visit of the "Oracle of the North," the grand eloquent member from Muskoka, Mr. Marter. It is looked upon as evidence of the generally acknowledged estrangement between the Federal tory party, and the Meredith party in Ontario that Mr. Marter should act as organizer instead of the party organizer, Robert Birmingham, of Toronto. The convention on Thursday last was a representative one, delegates being present from every ward in the city and townships. After several ballots Lawyer Smythe was nominated, although the convention displayed a decided preference in favor of Alderman Donald McIntyre. In fact if Mr. McIntyre could have been persuaded to stand Mr. Smythe would have been compelled to swallow his aspirations until a more opportune occasion. Mr. Smythe is not regarded by the Liberals as being a formidable opponent. He is looked upon by the laboring classes as being too aristocratic, a veritable "blue blood" don't you know, and any one who knows ought of political campaigning in this age, will appreciate the undesirability of this characteristic in a candidate. Mr. Harty will not lose any sleep in anticipation of the struggle.

That Kingston has some bad boys is to be expected, what town is without them? The police court on Monday revealed the painful fact that Kingston has within its confines, boys who give ample promise of gracing a cell in the penitentiary if their propensity for thieving develops with age. Four small boys were up for robbing hen roosts. A search by the police resulted in the capture of a large number of fowl and some very valuable carrier pigeons belonging to General Cameron. The boys conducted themselves with the utmost sangfroid, and acted more like hardened criminals than boys starting on an unfortunate career. Kingston parents are a little too lax in discipline. Any night boys of from nine to twelve years of age are to be seen strolling the streets at an hour when they should be under the parental roof. A frequent sight is it to see these little fellows with a cigarette stuck in their mouths and the ear is entertained by blasphemies that would do credit to men of the most vicious character. The introduction of the Curfew bell in Kingston would not be amiss.

Warden Lavell, of the penitentiary, is soon to be superannuated, not because

No Sleep For Him.

"We are all full," said the hotel clerk, "and I can only give you one room. You will have to show your samples in that for the present."

"But, my dear sir," said the drummer, "I've got to have some sleep. If those trunks of mine were put in my room I wouldn't close my eyes."

Hotel Clerk—May I inquire what business you are in?

Drummer—Certainly; I am selling ready-made neckties.

No Rest in the Grave.

At a small theatre in the banlieue, the curtain failed to drop at the close of the third act, but remained suspended midway. On the stage lay prostrate a solitary figure of a man who had been killed in the concluding scene. As all attempts to lower the curtain proved fruitless, the corpse at last got up, and saying in sepulchral tones: "For me there is no rest even in the grave," he tugged at the curtain until it dropped.—Le Journal Amusant.

Hamilton Spectator: "If Rev. Dr. Wild succeeds in getting himself elected as a member of parliament for Haldimand, he will not, as expected, join the McCarthyites, but will form a party of his own, based upon the great truth of Anglo-Israelism, for the purpose of hastening the fulfilment of Old Testament prophecy. Dr. Wild is a Man with a Mission, and he wears his hair long."

The St. John Globe points out that in one year only since 1880 has the Dominion Government paid its way. No matter how much they raise in taxation they spend it all and borrow more; deficit follows deficit and the debt goes up yearly. If they cannot make ends meet now with our present enormous taxation, how are we ever to get rid of the crushing load of debt which they have piled up against the country?

At Markdale controllers Wood and Wallace had more than they bargained for in getting the views of farmers concerning changes desired in the tariff. The Controllers tried to make the patrons believe they were in a prosperous condition and needed little change in the tariff, but it wouldn't work, and Messrs. Wood and Wallace put in about the hottest time they have experienced since they have been scouring the country.

Our conservative contemporaries are professing a great deal of anxiety as to who Sir Oliver Mowat's successor, as leader of the Liberal party, will be. They may as well save themselves needless trouble. The probability is that Sir Oliver will be Premier of Ontario and Liberal Leader for many years yet to come; but when, in the course of nature, as must inevitably occur, Sir Oliver has to retire, there are a score of Liberals around him any one of whom is able to assume the leadership, and every one of whom surpasses in ability the strongest man in the Ontario Conservative party.

Sir Hector Langevin was among those invited to take part in the Conservative demonstration at Belleville. Sir Adolphe Caron, who is quite as deep in the slime as Sir Hector himself, is still a member of the Government. Judging by appearances the McGreevy-Connolly case is about to collapse owing to lack of vigorous prosecution. And had not Owen E. Murphy been carried off by death, even he might still hope for restoration to rank and honor in the grand old party. Sir John Thompson seems to have lost sight of his promise to let no guilty man escape."

The almost prohibitive duties on barley imposed by the McKinley bill have done a permanent injury to the Canadian farmers. It was bad enough to be shut out of the American market — our only one valuable for this cereal — for a number of years, the loss thus entailed amounting to millions of dollars. But that is not the worst. Since the American brewers and maltsters could not get Canadian barley they accustomed themselves to the use of barley grown at home, and should the duty be reduced to the old figure as now seems probable, the Canadian barley, for the reason above given, will never again be in such demand in the States as it was in the past. This calamity the Canadian government might have averted had they been honest in their profession of a desire for reciprocity.

Remarking on the paucity of marriages in Ontario, the London Free Press blames the decrease in the marriage rate on Sir Oliver Mowat, alleging that it "makes the young man pause when he has to pay one of Sir Oliver's myrmidons \$2 for leave to do his duty to his race." That's a sad state of things, certainly. Think of the thousands of heart-broken couples prevented from entering the matrimonial state because there is a charge of \$2 for legalizing the union by license! Why, oh! why do they not proceed by banns? But if marriages have become less under N. P. conditions and a \$2 license fee, than they were under a revenue tariff and a \$6 license fee, which was required before the wicked Mowat's time, it is just possible that it is not the license fee, but rather the increasing difficulty of supporting a family under the conditions imposed by the high taxation policy that operates against matrimony. There is no Ontario tax on marriage; it does not cost a cent. But if the parties desire secrecy they may be married by license which costs \$2.

Bulmer vs. the Queen, the case which was argued in the supreme court yesterday, is another reminder of the attempt made by the Tory leaders to deprive Ontario of the immense tract of country between Port Arthur and Lake of the Woods, which was foiled by Sir Oliver Mowat after a gallant struggle. After declaring that Ontario should never be allowed to obtain "One stick of timber or one ounce of gold, lead or iron" from the then disputed territory, Sir John Macdonald gave licenses to Mr. Bulmer and others authorizing them to cut timber thereon. But the privy council decided that the territory and everything in or upon it belonged to the provincial government, and now the people of Canada must pay damages and costs to the holders of timber licenses from the Dominion government. The people of Ontario are to be taxed to cover the expenditure incurred in the unsuccessful efforts of the Tory leaders to wrest their territory from them. — Free Press.

 Officials say it is Practicable.

The railroad between the Indian Ocean
 and Victoria Nyanza which was survey-
 ed at the expense of the British Govern-
 ment is likely to be built. The report of
 the surveyors has been published and the
 friends of the enterprise are gratified to
 hear that there are no serious difficulties
 in the way.

Nearly every enterprise in Africa
 which involves surveying usually brings
 to light some striking errors in the maps.
 The surveyors of the Victoria Nyanza
 railroad have discovered an important
 error in the position assigned to the
 eastern shore of the lake. It has been
 made on our maps to extend too far
 east. The result is that the railroad will
 be about 100 miles longer than was sup-
 posed from the estimates made in 1891.
 The most direct route possible to the
 northeast shore of the lake has been fol-
 lowed, and it is found that the road will
 be 657 miles long.

The estimated cost of the projected
 railroad is \$11,200,000, or an average of
 \$17,245 a mile. The gauge proposed is
 three feet six inches. No tunnels will be
 necessary and none of the bridges would
 be considered in other countries even
 second-class in point of size. Steel rails,
 weighing fifty pounds to the yard and
 from thirty to thirty-six feet in length
 are recommended, and also steel trans-
 verse sleepers, each weighing seventy
 pounds. It will not be economical and
 hardly practicable to use wood for
 sleepers. If the road is built entirely of
 steel it will be practically indestructible
 by such mechanical appliances as are
 within reach of the natives. It is also
 better to use steel, because the custom of
 firing the grass and the temptation to
 use wooden sleepers for fuel or for build-
 ing huts would expose a line laid with
 timber sleepers to many risks. White
 ants are also numerous, and timber can
 hardly withstand their assaults.

at least thirty miles apart. Additional stations will be provided later at such points as the traffic demands. The terminal stations will be at Mombasa on the coast and at the northeast corner of Lake Victoria. During the construction of the railroad a telegraph line will be necessary and the large number of workmen employed and the constant movement along the line will render the telegraph free from any danger of destruction by the natives. The surveyors anticipate that the construction of the railroad will have a revolutionary effect and will entirely do away with the Masia raids upon the territory adjacent to the railroad.

For the first two years it is expected that the bulk of the labor on the railroad will have to be imported from India. It will also be necessary to maintain a special railroad police force. The route passes through some of the richest cultivated districts and the most populous regions in East Africa. From its terminus on Lake Victoria communication by steamboats plying on the lake will connect the railroad with the fertile districts around the shores and grant the outlet that is so necessary for the development of these countries.

The general average speed of trains is estimated at twelve miles an hour, including stoppages. On sections with easy gradients, and these include the greater part of the line, a speed of twenty miles or more may be permissible. When the line is first opened trains will be run only by daylight. This gives a running time of ten hours, or a total distance traveled each day of about 120 miles.

The officials take a favorable view of the earning capacity of the road. They say that, in their opinion, the actual working expenses of the road for the first few years would not exceed \$316,000, and it is probable that the road at the outset would be nearly able, from the freight and passenger traffic, to pay the working expenses. This does not include the interest on the investment, and at first there would be a deficit on the required amount of gross earnings to pay all expenses of about \$300,000 a year. They do not think, however, that this deficit would be for many years a tax upon the enterprise.

Great Britain has now assumed the control of Uganda, and as the building of this railroad is vitally necessary to the development of the lake region there seems little doubt that the Victoria-Nyanza railroad will be the next enterprise of the sort to be carried out in Africa.—N. Y. Sun.

THE PARLIAMENT OF ULSTER

ANTI-HOME RULES IN CONVEN-
TION AT BREST.

Five Hundred Delegates Attend the First
Sitting of the Parliament—Ten Peers
Elected to the Council—Dr. Kane
Threatened.

BREAST, Oct. 25.—The Unionist Parlia-
ment assembled yesterday in Ulster Hall.
Parliament consists of 600 members elected
by the Unionists in order to take measures
to resist Home Rule.

The meeting of the Unionist Parliament
aroused much interest in the city. The
streets were crowded with people, and the
neighborhood of Ulster Hall was packed
with citizens desirous of witnessing the
assembly of the anti-Home Rule delegates.
Of the latter over 500 were in attendance.
The Duke of Abercorn and Marquis of Lon-
donderry were also present.

The sitting was conducted in private,
but it transpired that the Duke of Aber-
corn was unanimously elected president,
after which the National Anthem was sung.
The parliament next proceeded to discuss
bylaws and other matters of interest to the
members.

The parliament passed a resolution de-
claring the intention and determination of
Ulstermen to adhere to their British
cousinship under the sole government of
Imperial Parliament and repudiating as
degrading the position assigned to by Ulster
the Home Rule bill. The resolution also
appealed to Irishmen to unite in the de-
fence of their country against those wishing
to separate it from Great Britain.

Col. Sanderson, M.P. for Armagh, said
that Ulster would be willing to obey the
laws passed by the Imperial Parliament until
that Parliament should choose to oust
Ulster loyalists from Great Britain. Then
the loyalists would feel no longer bound to
obey.

Rev. Dr. Kane, Grand Master of the
Orangeism, said no enmity existed be-
tween the Ulster loyalists and their fellow-
countrymen, always excepting those who
followed the priests blindly. The most
atrocious desecration on the face of the
earth, he remarked incidentally, was an
Irish-American, yet Mr. Gladstone had not
scrupled to write a letter commending
Irish-Americans. The men of Ulster held
the bond of friendship to those Catholics

PORT DALHOUSIE'S DEAD BURGLAR.

Not Known to Toronto Detectives—Was
He a Fakir?

TORONTO, Oct. 25.—The World publishes
a fairly good likeness of the burglar shot

THE DEAD BURGLAR.

dead at the canal toll office at Port Dal-
housie Sunday morning.

Sergeant Reburn of the Toronto Detective
Force yesterday visited Port Dalhousie
where the body of the dead man was ex-
humed. The sergeant was unable to identify
the man, however, and is of opinion that he
is not a professional burglar, but a fakir who
has been following the fall fair. He bases this
conclusion upon the fact that a quantity of
cheap jewelry was found in his pockets.

Here is a description of the dead man:
Age 32, 5 feet 7 inches in height, rather
slimly built, sandy mustache, hair of same
color.

Here is an inventory of the dead man's
effects: One open-faced silver watch, with
hocket; ring on small finger of left hand
with two little hearts engraved on it; plain
gold ring on right hand, pair of kid gloves,
cigar holder, red silk handkerchief and plaid
silk handkerchief, light overcoat, card of
Russell House, box of jewelry, seven rings,
one collar button, four scarf pins and a
watch chain, \$3 American gold piece in
purse, 65 cents in nickels and four \$2 Do-
minion bills, a knife and collar button, a
scarf pin in his tie, and seven bullets and
two railway tickets in his pockets.

The detectives are entirely in the dark as
to the man's accomplices. It is believed there
were four men in the gang.
Considerable indignation exists at Port
Dalhousie over the vulgar manner in which
the body of the burglar was buried.

THE LIBERAL REFRIGERATOR.

SIR RICHARD CARTWRIGHT SPEAKS
IN SOUTH OXFORD.

He Makes No Explanation Why He Sulked
During the Laurier Tour, Fights Shy
of Reciprocity and Commercial Union
and Bemoans the Travail of the Do-
minion Government.

BURFORD, Ont., Oct. 25.—The fiercest
Roman of them all, Sir Richard Cartwright,
made his appearance as advertised at the
Bornea Hall here last night, and the brood-
ing fear that he might have gone out of
politics is thus dispelled.

The attendance was only fair, and those
of Sir Richard's South Oxford constituents
who expected that he would explain why
the financial side of the Liberal policy was
not presented to the electors during the late
Laurier tour, and why Richard himself re-
mained in exotic obscurity, were disap-
pointed.

He launched out at the outset upon the
trade policy of the Government and accused
the ministers of being in a frightful
dilemma. They were anxious to securely
remain fast friends with the manufacturers
and at the same time propitiate the
farmers.

The combines directed the Govern-
ment and Ministers were, so to
speak, between the devil and the
deep sea. They were afraid of the classes,
whom they had protected, and mortally
afraid of the masses, whom no amount of
protection would profit, viz., the agricul-
tural, the lumber, mining and fishing in-
dustries.

The fiscal policy of the present Govern-
ment had unnecessarily increased the taxes
of the people. The National Policy had as-
sisted to increase the cost of the manu-
factured article, while the price of cereals
had fallen in the last 10 years 30, 40 and
even 50 per cent.

The whole system of taxation was a fraud
upon the people.

Sir Richard denounced the mixed system
of ad valorem and specific duties as taxing
the goods of the wealthy lightly, while
it bore heavily upon the poorer
materials used for general con-
sumption. The policy pursued by
the Government was the reverse of
every principle known to true statesman-
ship. The ministers said the aggregate of

maintaining.

A heated discussion took place during the day session on the question whether all the Unionist peers could be included in the Central Council.

Two Presbyterian clergymen moved that only 10 peers be allowed to sit in the council, and this motion was carried.

Rev. Mr. Kane supported this amendment, and as a result threats were made to dethrone him from the mastership of the Orange society.

Most of the members were so dissatisfied with the proceedings that they left the hall.

The meeting resolved to raise a guarantee fund which could not be called upon unless a parliament at Dublin was created.

The public was admitted to the meeting hall at 4 o'clock in the afternoon, and further resolutions were offered and adopted without dissent, declaring allegiance to the United Kingdom and thanking the members of the House of Lords for ejecting the Home Rule bill.

While the Ulster Parliament was in session a simultaneous conference of Unionist women was sitting in Assembly Hall.

EVICTED TENANTS.

Ask Redmond to Approve Retaking Their Holdings by Force.

CORK, Oct. 25.—A deputation of tenants who had been evicted from their holdings waited on John Redmond, M.P. for Waterford City, and leader of the Parnellite section of the Irish Parliamentary party, yesterday and asked him to approve a project having as its aim the forcible retaking of the farms from which they had been dispossessed.

Mr. Redmond advised his visitors to wait until it was seen whether the Government passed a reinstatement bill. He blamed the Anti-Parnellite members of the House of Commons for postponing and trifling with this question, which has become the more difficult of settlement since the House of Lords has rejected the Home Rule bill.

THE IRISH INDEPENDENTS.

Will Support the 'Employers' Liability Bill—Looking For Manhood Suffrage.

DUBLIN, Oct. 25.—William Field, M.P. for St. Patrick's division of Dublin, in a speech at the meeting of the National League in Dublin last evening, said the Independent party was making progress in all parts of Ireland. Although Parnellite members would not attend the meetings of the House of Commons regularly during the coming session, their influence would be directed to the support of the Employers' Liability bill and other measures of benefit to workmen. He also expressed hope next year a manhood suffrage bill would be included in the program of the party.

Is Asquith Giving in to Redmond?

LONDON, Oct. 25.—Home Secretary Asquith is visiting Hon. John Morley, Irish Secretary, and his visit, it is believed, will be followed by the release of some of the Irish political prisoners.

Michael Davitt a "Responsible" Bankrupt.

DUBLIN, Oct. 25.—The court refused a discharge order in bankruptcy obtained against Michael Davitt, Ex-M.P., on the ground that he is a responsible bankrupt, from the fact that he refuses to allow subscriptions to be raised to pay the cost of his election petition.

Embezzlement and Attempted Suicide.

LONDON, Oct. 2.—H. F. Moore, editor of The Mark Lane Express and Bell's Messenger, was summoned to the Bow-street police court Tuesday to answer a charge of embezzling the funds of the papers.

He did not appear and it was stated that he had shot himself with a pistol. He is still alive. The hearing was adjourned.

Lorraine the Friend of Russia.

PARIS, Oct. 25.—Deputations from French Lorraine waited upon Admiral Avellan yesterday at the Military Club and presented him with numerous testimonials subscribed by the inhabitants of that province. Deputy Meyeres in making the presentation said he wished the Russians to know that they had trusty friends in 1800 communes in Lorraine.

was thrown in like a dog, and with a little ceremony. Although the body was interred in the Presbyterian cemetery, there was no clergyman present, nor any religious rites at the grave.

The general impression at Port Dalhousie is that the gang of which the dead man was a member robbed the Dundas Postoffice on Oct. 19, and it is thought they intended to do up Port Dalhousie in the same manner.

Chief Cummings of St. Catharines is being credited for not rendering assistance when he might possibly have effected the capture of the robbers, who must have been in the vicinity for hours afterwards.

The whole section of the country is excited over the most daring attempt at robbery that has occurred since the robbery of the Bank of Montreal 20 years ago, when \$45,000 was stolen.

The St. Catharines Chief of Police received a telephone message from Detroit yesterday that the man was Archie McFaggart, but who McFaggart is is a mystery.

TRYING A MUTE FOR MURDER.

Three Juries Will Settle Various Questions Before He Is Put On Trial.

St. John, N.B., Oct. 25.—Edward Wheary, a deaf mute, charged with the murder of his brother's wife, will soon be tried under a novel method of procedure.

Four juries will be sworn in. The first one is to find whether the prisoner is mute by pretence or by the visitation of God. The second jury will inquire whether the prisoner is capable of pleading to the indictment. The fact that he has been shown to be able to read and write, was taught in a deaf mute school, and when the indictment was given to him read it and made signs that he was not guilty, will doubtless be held to be sufficient evidence for the second jury to return an affirmative verdict.

The third jury will find whether he is sane. If this jury finds the prisoner sane a fourth jury will then try the prisoner upon the indictment as in ordinary cases except that the evidence must be interpreted to the prisoner.

REVELATIONS FROM THE PROPHET

The Sultan Said to Have Purchased Some Very Valuable Epistles of Mohammed.

LONDON, Oct. 25.—A despatch to The Central News from Constantinople says "The Sultan has bought from a French savant for £5000 Turkish two epistles that are ascribed to the Prophet Mohammed. The documents have been tested by the highest authorities and have been declared to be authentic. The discovery of these epistles, the despatch adds, may revolutionize the Mohammedan world."

HIS BRAINS KICKED OUT.

An Accident to an Essex Farm Hand That Will Be Fatal.

ESSEX, Ont., Oct. 25.—A serious if not fatal accident occurred last evening a few miles from here. Henry Moore, a farm hand employed by J. Robb, was driving a horse, which came loose from the whiffletree, and while leaning over the front of the wagon to fix it the horse kicked him on the head and face, causing the brains to protrude. There are little hopes of his recovery.

STRANGE DEATH OF TWO BROTHERS

Died Within Ten Minutes of Each Other and From the Same Cause.

WATERTOWN, N.Y., Oct. 25.—The coroner's investigation in regard to the strange death of George and William Winegar on Perch River has been concluded, and the conclusion arrived at is that both men died from heart disease.

It is believed that there is no similar case on record with such a series of coincidences.

The two brothers died while on a trapping expedition, sitting in their boats, and within a few minutes of each other.

The post-mortem examination carried the parallel further and indicated that both died from heart disease of the same form, a tumor having been found on the heart of each man.

ASSAULTED WHILE ASLEEP.

A Strange Occurrence to a London Married Couple.

LONDON, Oct. 25.—Mr. and Mrs. Edward James of Queen's-avenue east a few nights ago were assaulted while asleep. Mr. James received a severe blow in the head and getting up could not find his assailants. He went out for assistance, and when he got back all the doors in the house were open and Mrs. James was lying on the floor bruised and bleeding from some injuries she had received. No explanation is offered of the affair.

fact with the ad valorem and specific duties combined, taxation reached to 40, 50, 60 and even 100 per cent.

He accused the N.P. of being disloyal to Great Britain, inasmuch as many articles enumerated were taxed higher coming from England than from the United States.

After quoting statistics of the duties upon iron and cotton goods Sir Richard took up the reduction in the sugar duties and accused the Government of robbing the revenue of the country for the express purpose of benefiting Senator Drummond and a few sugar refiners. Over 3,000,000 pounds of sugar were annually consumed in Canada. A tax of 1 per cent. was levied upon this. Not a cent of it went into the Government money chest, however, but found its way into the pockets of the refiners to the tune of something like \$2,500,000.

The last census of Canada was next contrasted with that of 1881, while the speaker attempted to show that this was due entirely to the fiscal policy of the country. Ontario and Quebec have not, Sir Richard said, increased by one-half as much during the 10 years from 1881 to 1891 as during the 10 years previous to 1881.

Mr. Edgar's charges against Sir Adolphe Caron and the imprisonment of Mr. Ellis at St. John, N.B., were then touched upon, after which Sir Richard declared himself in favor of free trade with all the world if possible, and certainly with the United States.

THE SENATE AND SILVER.

The Anti-Repeaters State Their Intention of Not Talking "Longer Than Necessary."

WASHINGTON, Oct. 25.—Mr. Jones did not finish his speech in the Senate Tuesday. At 4 o'clock Mr. Jones yielded the floor, saying that he would conclude his speech at another time, perhaps to-morrow, and that it was not the intention of anyone connected with his side of the question to prolong the discussion any longer than was necessary for them to give their views entirely to the Senate and to the people.

Mr. Faulkner (Dem., West Virginia) said that, as he was satisfied that Mr. Jones closing remarks stated correctly the position of the opponents of the bill, he moved that the Senate take a recess. The motion was agreed to and recess taken till 11 a.m. to-morrow.

The U.S. Reserve Increasing.

WASHINGTON, Oct. 25.—Conrad N. Jordan, assistant treasurer at New York, left here for New York yesterday. He was here in consultation with Secretary Carlisle and Assistant Secretary Curtis as to hastening the pending redemptions of currency with a view to decreasing gold payments at the sub-treasuries. The reserve shows signs of increasing, it being to-day nearly \$82,000,000.

VICI-ROYALTY IN TOWN.

The Reception to the Governor-General and Lady Aberdeen.

The arrival of Lord and Lady Aberdeen has caused a flutter of excitement in the society circles of this staid town, and the reception to the representatives of Her Majesty the Queen will be attended by many of Toronto's fashionable dames and dememoiselles.

Patriotism, of course, is not the only motive of those who will be at the Pavilion this afternoon. A large majority of the fair sex, at any rate, will go as much to see what others wear as for any other reason. They will observe many of the ladies who will grace the scene wearing the "Lady Aberdeen" fur cape, the latest and one of the handsomest designs of the approaching season. Messrs. W. & D. Dineen report a large sale of this style, which is certain to be one of the reigning favorites.

Fur capes are apparently supplanting fur jackets in popular favor. This is due to the fact that with the large sleeves of modern dresses jackets cannot be worn with any degree of comfort. The long capes now in vogue are the most convenient and least expensive garment obtainable, while the beauty of the new styles makes them most fashionable.

All the new designs are at special prices during the continuance of the October sale at Dineens', King and Yonge-streets.

The Fight is On For Good.

NEW YORK, Oct. 24.—Charley Mitchell has accepted training and W. A. Brady has declined the Bolingbroke Club's offer of \$12,000 for the big fight in London. Both principals hope the Coney Island Club will take care of them as far as the expenses already incurred are concerned. So far as can be seen the fight is off for good.

THE PURCELL WILL CASE.

Now Before the Supreme Court--\$600,000 Involved.

OTTAWA, Oct. 24.—The Purcell will case, which involves about \$600,000 in the Province of Ontario, was up before the Supreme Court yesterday. This is an appeal from the Court of Appeal. It will be remembered that after the death of Mr. Purcell two wills were found; one was prepared by D. B. MacLennan, in Cornwall, January, 1891, which was supposed to revoke one prepared by M. O'Gara, Q.C., Ottawa, on May 4, 1890. The MacLennan will bequeathed only about \$100,000 of the estate; the remainder, of course, would fall to the legal heirs of deceased. The O'Gara will left a large part of the estate to charitable institutions belonging to the Catholic Church. In March, 1891, deceased signed a codicil to the first will making John Bergin, brother to Dr. Bergin, M.P., one of the executors instead of J. A. Stewart, whom Purcell did not want to be benefited by the will. The trial judge at Cornwall held that the codicil revived the O'Gara will, and that both together formed the will of testator, with some exceptions. The Court of Appeal held that the trial judge was right in holding that the codicil revived the first will, but held that the judge erred in holding that it was in any way valid by its own date. The disenthailed charitable institutions now appeal, and the widow and next of kin cross appeal against the codicil reviving the first will.

THE QUEEN'S FORE KNEE.

Her Majesty Finds Difficulty in Ascending Stairs—Elevators for the Palaces.

NEW YORK, Oct. 24.—Edmund Yates cables: Since the Queen met with an accident at Windsor Castle 11 or 12 years ago, when one of her knees was injured, she has found it very troublesome and sometimes painful either to ascend or descend a staircase. This difficulty has lately increased so much that a lift has just been placed in the private apartments of Windsor Castle for Her Majesty's use, and another lift is to be fitted up at Osborne before the end of next month. The Queen has a greater number of steps to ascend at Osborne than at any other of the palaces, as her own apartments are in the pavilion near the top of the house. Lifts are also being made for Buckingham Palace and Balmoral, which will be ready for use early in the spring. There was a lift in Buckingham Palace for

ENGLAND AND MASHONALAND

THE GRAB GAME OF THE CHARTERED CO. CHECKMATED.

By Subduing the Matabele the East Africa Co. Thought to Secure Ownership of Their Territory—The Imperial Government Has Now Stopped It.

CAPE TOWN, Oct. 25.—A nice little row is in progress between Sir Henry Loch and Hon. Cecil Rhodes, who holds the dual position of Premier of the Cape and President of the Chartered Company. It is announced here that Sir Henry Loch informed the latter that he, as High Commissioner, has sole control of the settlement of the Matabele question.

Sir Henry adds that the matter has been relegated to him by the Imperial Government. Premier Rhodes, it is understood, has entered a protest against this arrangement and has cabled his objections to Lord Ripon, Secretary of State for the Colonies.

The dispute is causing a great deal of comment here, as Col. Rhodes is at the scene of action and is understood to have the confidence of the colonists. It is rumored here that a strong detachment of troops will be immediately sent to the front, outwardly as an escort to Sir Henry Loch, but in reality to enable the High Commissioner to take a determined stand against the attempt of the British Chartered Company to act in a high-handed manner in regard to the territory of the Matabeles, which the company is known to covet very strongly.

In case Bulawayo is captured by the company's forces and should Lobengula be captured Sir Henry Loch will, it is understood, acting upon instructions received from the Imperial Government, act as arbiter in the final settlement of the dispute between the company and the Matabele king, and will not allow the latter to be crowded to the wall simply because the savage monarch has been unable to control the warlike impulses of his hot-headed young warriors.

The Cape Times, in commenting upon the dispute between the Commissioner and the Premier, seems to be of the opinion that the company is right and should be allowed a free hand in dealing with the Matabeles.

ALL MIRACLES DO NOT OCCUR AT HAMILTON.

The whole town of Glamis, Ont., knows of a cure, by the application of MINARD'S LINIMENT, to a partially paralyzed arm, that equals anything that has transpired at Hamilton.

R. W. HARRISON.

A Confident Prisoner.

It was a case of chicken stealing, and the prints of bare feet were found in the gravel around the henhouse. The lawyer for the prosecution was one who if he had been a Napoleon never would have crossed the Alps. He would simply have pulled them up by the roots and thrown them over the fence. The prisoner was an unknown tramp and lame at that.

"You say you don't know anything about this theft?"

"That's what I swore to, sir," said the tramp, meekly.

"You were in the back yard at Slam-tip's house about supper time?"

"Yes, sir."

"You knew the location of the henhouse?"

"Yes, sir."

"You were seen on the road in front of the house some time after dark?"

"I was there, sir."

"You were in the yard after dark?"

"Yes, sir, and after supper also, sir," replied the prisoner with a wan smile at his innocent little joke in such a place.

"And you were seen by the cook sitting on the doorstep with your shoes off?"

"Yes, sir; there was a pebble in it that was too big to get out of the same hole it got in at."

"Now, sir, I propose to prove that you made these tracks with your bare feet while you were stealing the chickens of the plaintiff."

"You can't do it, sir," said the prisoner, mildly but firmly.

"And why not, pray?" asked the lawyer with fine sarcasm.

"Because, sir, I've one wooden leg, sir," and he gave a kick that sent it clean across the court room and almost

DOUGLAS BRO. & CO., NAPANEE, ONT.

DEAR SIRS,—During the summer of 1890 I had a mare staked in such a manner that people advised me to shoot her. I got DOUGLAS' EGYPTIAN LINIMENT and Syringe. After cutting the skin open on rump was enabled to get hold of the stake, which was nothing less than part of a handspike that had gone in her flank and was pulled out at root of tail. After using DOUGLAS' EGYPTIAN LINIMENT as directed, my mare was at work in three weeks. The above happened in distressing hot weather. I now keep it in the house and use it for almost everything where a liniment is required. I cannot recommend it too highly; every household should keep it for immediate use. Inflammation nor proud flesh never threatened. I declare the above to be correct and true.

INTERRED IN ONE GRAVE.

Burial of Mr. and Mrs. Albert Bradley of This City at Sarnia.

TORONTO, Oct. 25.—The double funeral of Mr. and Mrs. Albert Bradley of this city, victims of the Battle Creek railway disaster of Friday last, was held from the residence of Mr. W. B. Clarke, Sarnia, yesterday. The places of business were closed as a mark of respect to the deceased, and an immense concourse of people attended to show their sympathy with the sorrowing family. The services were conducted by Rev. John McT. Scott of St. John's Church, Bolton-Gerrard-streets, Toronto, and Rev. Dr. Thompson of St. Andrew's Presbyterian Church, Sarnia, at the house and burial ground. Quite a number of Torontonians attended the funeral.

The facts in connection with Mr. Bradley's death are very pathetic:

Mr. Bradley was supposed to be rapidly improving, and on the certain road to recovery. His brother-in-law remained with him until about noon Sunday, when he decided that Bradley was so well on the way to recovery that he could be left with safety, while the last sad obsequies of the wife were attended to. "Albert," the brother-in-law said, on taking his departure, "you are so much better now that I think I had better go home for a day or two. Do you think you can spare me?"

"I know why you wish to go," said the poor sufferer, clinging to the hand, while his eyes filled with tears; "yes, certainly, you must go. It is your duty, and I wish it. When you come back you can tell me all about poor."

He broke down, but at once mastered his emotion and bade his relative farewell in comparative composure. During the afternoon he was unusually cheerful and seemed to gain strength. He talked constantly with his attendants and was often seen to smile. All at once a change was seen to pass over his face, his eyes became fixed and he murmured what the watcher took to be the name of his wife. Gradually his gaze assumed the glassy stare, which is unmistakable to the experienced eye, and the next moment he was dead.

"He half smiled," said the nurse, in describing the scene, "and I think he saw his poor wife as he remembered her in health and beauty, not as others saw her later, all charred and distorted."

Identified by a Letter to His Brother.

George Dawson of Essex, England, was identified as one of the victims by his brother, Robert Henry Dawson of Tacoma. George was on his way to visit him and had written his brother. "We are now saying it has been six years since you saw me and perhaps you would not know me." He gave an accurate description of his dress and his baggage. Then he tells what he had in his pockets and the number of his watch, even adding that the key to his watch will be found in his vest pocket. "I may get wrecked or captured by Indians and this will serve to let you know who I am in case anything happens. I shall leave Buffalo over the Grand Trunk on the Pacific Express." This letter was the means of identification.

AN EMBEZZLER ARRESTED.

Thomas O'Connor of West Chester, Pa., Captured in Hamilton.

HAMILTON, Oct. 25.—Yesterday afternoon Detective McKenzie arrested a well-dressed young man named Thomas H. O'Connor on several charges of embezzlement. O'Connor has been here for some weeks. The charges are laid by firms for whom he worked in West Chester. Detective Holman of West Chester took O'Connor to the other side.

Exploding Gunpowder Causes a Blaze.

PEMBROKE, Ont., Oct. 24.—Yesterday an explosion of gunpowder occurred at the storehouse of Messrs. Dunlop & Chapman, Renfrew-street, and in a few minutes the building was enveloped in flames. The fire was confined to the store house, which was gutted. Loss \$1600. Albert Caron, 16, was badly burned.

Government in practically placing the settlement of the Matabele dispute in the hands of Sir Henry Loch, and taking it entirely out of the hands of Col. Rhodes and the British Chartered Company. In view of these facts it is now generally admitted at Cape Town that the Imperial Government has plainly hinted that it will reserve the right to treat with King Lobengula, and that it is determined to make a strong effort to override the present warlike speculations of the British Chartered Company, which may be desirous of annexing the Matabele territory to its already large possessions.

On the other hand the friends of the Chartered Company claim that the present split, if carried so far as outlined by Sir Henry, will mean the assumption of the government of Mashonaland and Matabeleland by the Home Government.

It is an open secret that the Marquis of Ripon is in sympathy with the Matabele natives and that he looks upon the present war as not entirely justified and as more of a speculation than a desire to protect the settlers against the depredations of the bloodthirsty natives. This, to a certain degree, explains the apparent laxity of the Government in showing its hand in the present disputes.

The Imperial Government, it appears, is desirous of having a clean case to deal with before in any way interfering in the dispute between the British Chartered Company and the Matabeles. While recognizing all the rights conferred upon the British Chartered Company the Imperial Government at also recognize the fact that Lobengula has certain rights which it is bound to protect against the aggressions of the British Chartered Company.

In spite of these facts it is admitted that decisive battles must be fought before any settlement of the dispute can be arrived at. With this object in view the British columns are pushing forward towards Bulawayo.

No doubt the sensational advertisements inserted in the London papers calling for volunteers who could ride, shoot and had £200 at their disposal to join the colonist forces had a great deal to do with turning the tide of sympathy against the British Chartered Company, and in exposing the real meaning of the campaign.

THE MOROCCO CAMPAIGN.

Spain Will Send 12,000 Troops and Will Annex the Melilla Territory.

MADRID, Oct. 25.—The plan of campaign proposed by the technical commission which recently visited Melilla has been approved by the ministers. It involves the sending of 12,000 regular troops against the hostile tribesmen now entrenched in the neighborhood of the fortress.

Gen. Margallo, now in command at Melilla, will be replaced by Gen. Macias. Already 4000 additional troops have been ordered to embark at once for Melilla.

Operations against the tribesmen will begin next week. Gen. Chinchilla will command the Andalusian army. Severe fighting is expected and Spain undoubtedly has decided to annex the territory around Melilla so as to assure the strategic safety of the fortress for the future.

AN EMPTY BOAT.

Told the Tale of a Sportsman's Sad Fate.

CHATHAM, Oct. 25.—A skiff without an occupant drifted in on shore near the Shrewsbury point of Rond Eau harbor.

The skiff was an ordinary hunting boat. In it were the sportsman's gun and coat. That was all, but it told the tale of the melancholy end of Henry Maybee of Simcoe, who had come to shoot ducks.

How he lost his life there is no one to tell. Search is being made for the luckless sportsman's body.

Presented for Her Majesty's Approval.

LONDON, Oct. 25.—The usual presentation of the newly elected Lord Mayor of London, George Robert Tyler, to the Lord Chancellor in the House of Lords took place yesterday in the Prince's chamber. The corporation dignitaries arrived at 11.30 and the Lord Chancellor took up his position facing the Lord Mayor. After bowing three times to each other, the recorder announced that in accordance with the ancient custom they had come to present the Lord Mayor-elect for Her Majesty's approval. Then the Lord Chancellor communicated to the Lord Mayor the Queen's approval of his selection for the office.

whom were Canadians. Right now have since died from injuries received. No one was injured on the one train. The engineers both escaped by jumping from their cars. The collision was caused by the engineer and conductor, both of whom are now in jail, disobeying orders.
Temperance.
On Sunday afternoon last a temperance meeting was held in the town hall. The chair was occupied by M. S. Madola, who in a few opening remarks explained that the object of the meeting was to take steps in view of the plebiscite vote to be taken in January. Dr. J. D. Bissonnette gave an excellent and most instructive address on "The Effects of Alcohol upon the Human System." Mr. A. R. Davis was announced for an address on "The Remedy against Intemperance, which is in the hands of the people," but owing to the lateness of the hour he decided to postpone it until Sunday afternoon next, when a meeting will be held at 4 o'clock.
Was in the G. T. R. Collision.
Mr. James Richardson, tailor, Napanee, was in the collision on the G. T. Ry. at Battle Creek, Michigan, on Saturday last. He was luckily on the home bound train from Chicago on which not a passenger was injured. He was in the seventh car from the engine and says that when the trains collided the jolt in his car was not much heavier than if brakes had suddenly been put on. His hand grip dropped on the floor and broke a little glass dish he was bringing home for a present. No other Napaneans were on the train. W. C. Scott, another Napanean, formerly editor of this paper, was on the train previously passed on the siding. Mr. Richardson says the sight was terrible.
To the Butter Producer.
To the farmers of the Township of Richmond. I desire to call your attention to the fact that you have been throwing away more butter than you have been making. I have secured the agency for Thurston's New Butter Process, which will make two to three times the amount of butter that can be made by any other method yet invented. No chemicals or extra machinery required. I will give you free with each license a receipt whereby you can convert old or strong butter and make it equal to new. This is a genuine method and you are invited to inspect it. All correspondence promptly answered. Call and see me at my office. **MILES S. PLUMLEY.**
Commendable.
The town council has this year, with Mr. Symington as chairman of the streets committee, made some thorough work in improving the sidewalks on Dundas st. and the grading and draining of this street in an efficient manner, now being done will make all the storekeepers thankful that at last an escape has been made from the mud. The laying down of granolithic sidewalks or walks of some permanent nature, was first introduced into the council by Dr. Ward, and the advantages were at once apparent to the council as a whole. The owners of properties benefited have to pay one half of permanent sidewalk and the council has to provide the other half. To do this some ratepayers thought would increase their burdens, instead of which there is actually a reduction of taxes, as an inspection of the tax bills now delivered, and comparison with rate of last year, will demonstrate. Great improvements and less taxes are acceptable to any ratepayer.
Given an Annuity.
Mrs. Helen Sinclair is one of those old residents who still survives at the age of ninety. Mrs. Sinclair was formerly Miss Fraser and was born in Inverness, Scotland, ninety years ago last March. Her husband settled in Napanee, where he died. Soon after Mrs. Sinclair came to Belleville, where she took up the calling of a nurse, in which office she was employed by the better class of families many of whose descendants still live in Belleville. She has been bed-ridden for five years, although her hearing, memory and sight are fair. Years ago Mrs. Sinclair nursed the late Dr. Kennedy, the discoverer of the now famous "Kennedy Medical Discovery," and who afterwards removed to Boston. At his death, his son, also a doctor of medicine, learned that his father had annually remitted \$250 to the old nurse. The result was that the doctor, accompanied by his wife, came to Belleville, saw that his father's charge was placed in comfortable circumstances, and has since sent the annual remittance of \$250, which she will be continued until her death.—Belleville Intelligencer.

TAILORING

Do you know how well we do it or how much of it we do. It is a very busy department with us this fall. We are making some very nice suits in Black Serges and Cheviots and Scotch Tweeds, and they cost surprisingly little morey. But we are busiest on Overcoats, probably because we turn out a nics Overcoat for \$10 to \$14. If you haven't been in the habit of buying your Clothing here suppose you try us, nothing like investigation to get at the facts.

CLOTHING

ready to put on. Fit to put on too. Clothing that looks well, fits well and wears well, at prices just as low as honest Clothing can be sold for anywhere or in any quality. Try us for Clothing for yourself or for the boys. Boy's Overcoats and Pea Jackets are here in good variety and are going out fast. A little money will do a good deal among them.

Underclothing

Is a word that includes a great many things of late years.

Underclothing from 50c a suit to \$10 a suit for Men. Underclothing for Boys in all needful qualities, not a cent to dear. Ladies Underwear at prices very little higher than the summer goods were sold for, but soft and fine even in the cheapest goods. Makers have made great advances in finish and make this year, a nice article costs very moderately now. Misses, Children's, Infant's Underwear, the right kinds and sizes always here, and prices ever lessing with increase of trade.

Died at a Ripe Old Age.

On Saturday last Ann VanWarder, relict of the late John W. Bristol, passed away at the ripe old age of ninety-seven years, eighteen days, having survived four husbands. Deceased had lived in Napanee for the last twenty years, the last ten of which she had been a widow. During the latter part of her life she lived with Mrs. B. Briggs, Mill street. Up to five weeks ago she had been very smart, but met with an accident, spraining her wrist, and since that time has been confined to her bed. She died on Saturday last from the effects of a cold and old age.

C. I. Literary Society.

The meeting opened at the usual hour, Mr. Grange in the chair. The following programme was announced: Debate—Affirmative, Messrs. Palmer and Stratton; Negative, Messrs. Millsap and Bowerman. Vocal Solo.....Miss Ada Tolkein. Recitation.....Miss Flo Minchinton. Mouth Organ Solo.....O. Fralick. God Save the Queen.

The debate—Resolved that the Printing Press has been of more benefit to the world than the Steam Engine, was decided in favor of the affirmative. The business meeting was postponed on account of the lateness of the hour.

An Old Resident Dead.

John Gleason, for forty-two years a resident of Roblin's Hill, Napanee, died on Thursday last week at the age of about seventy-six years. Deceased was born in Ireland from which place he immigrated to Napanee. Last winter he was taken ill but rallied enough to be able to get out and call on his neighbors eleven days before he died. He was taken with a relapse and had to take to his bed. During his illness he never complained of any pain and his death was very peaceful. The funeral took place on Saturday to the R. C. Church of which he was a member, and thence to the cemetery, Rev. Father Hogan conducting the services. An aged wife and three sons mourn his loss. The sons are Dan, Edward and John. John now resides in Manitoba.

A Prominent Merchant Dead.

D. J. Hogan, merchant tailor, passed away on Thursday last about noon after an illness of about five months, part of which time he was confined to the house. Deceased was one of Napanee's principal business men. He came to this country from Limerick, Ireland, in 1849, in which place he was born in the year 1831, settling in Kingston, where he married Miss Margaret O'Sullivan. He moved to Picton a short time afterwards and in 1865 moved to Napanee where he went into partnership with Henry Spencer in the merchant tailor business. In 1876 they dissolved partnership, Mr. Hogan going into business himself and afterwards taking in his son Dan, as a partner. About a month ago, the day of the Watertown I.O.O.F. excursion, was the last day he was able to be outdoors. Mr. Hogan was a very quiet and highly respected citizen, and had many friends. He was a constant member of the R. C. church. The funeral takes place on Sunday at 2.30 p.m. from his late residence thence to the cemetery.

Death of a Resident of Camden.

Elizabeth, beloved wife of Patrick McAvoy, 2nd concession of the township of Camden, passed out of the land of the living on Saturday last, 21st inst., after an illness of about three weeks. Deceased was about fifty-six years of age, and came to this country from Cork, Ireland, about forty years ago. She was a constant and faithful member of the Roman Catholic church. During the past twenty-eight years deceased and her husband, who is now very poorly, have resided in Camden township where they have made many friends as was evidenced by the large funeral on Monday last to the R. C. cemetery, Centreville. Rev. Fr. Hartigan conducted the funeral services. Four sons and four daughters are also left to mourn the loss of a loving mother. They are: Thomas, residing in Campbellford; William, living at home; James, of the Campbell House, Napanee; John, of the Brisco House, Napanee; and Maggie, now Mrs. John McNeill, Camden; Ella, Mrs. Gough, Camden; Libbie and

Still Suspected.
KINGSTON, Oct. 26th.—The Napanee authorities and the government detectives still suspect E. J. Maloney, ex-convict and tough, of being the murderer of Angus McLeod, and they are yet engaged in collecting evidence against him. They do not desire to put an innocent man to trouble, but they are determined to investigate all clues. When he first gained an inkling of the fact that he was suspected, Maloney made a statement of his whereabouts on the night of the murder. This was investigated and proven false, and suspicion became stronger.

The authorities then resolved on a bold move. Private detective H. Vankoughnet, of Napanee, who is acting in conjunction with Government Detective Rodgers, came down last evening and visited Maloney in his cell. There he plainly charged the ex-convict with murder. Maloney appeared disconcerted when the charge was made; but he soon recovered his composure and, of course, denied all knowledge of the crime. He then directed the detective to certain people in an eastern town, who, he claims, can account for his whereabouts on the night of the murder. Mr. Vankoughnet left the prisoner and remained in the city until this morning investigating certain matters. At noon to day he left for the east in order to ascertain whether Maloney's statements were true. If he finds them so the charge will be dropped, but if the statements are found incorrect, the ex-convict will be taken at once to Napanee and placed on trial for murder.

PARISH NEWS.

Church of St. Mary Magdalene.

Sunday next (XXII after Trinity) celebration at 8 a.m.—B. Andrew's chapel at 3 p.m.—Sunday School and Bible Class as usual. Evensong, 7 p.m.

Confirmation class next week on Tuesday evening instead of Thursday on account of the meeting of the Ruri-decanal chapter at Bath, at which the rector is expected to be present.

Wednesday being All Saints day, there will be a celebration of the Holy Communion in the basement chapel St. Mary Magdalene's church at nine o'clock a.m.

Regular meeting of sisters of the parish on Wednesday evening at 7.30.

Working meeting of guild at Mrs. Merrett's, on Wednesday afternoon, Nov. 1st, at 2.30 o'clock.

Ministering children's league on Saturday afternoon at 2.30 o'clock.

Another of our oldest citizens and churchmen went from us this week. Mr. Smith, of Robin's Hill, had been ill for most of the summer, and feeling his end approaching, sent for the Rector and made his peace with God. He was held in great respect by his neighbors who testified by many kindly acts during the many tedious hours of waiting for the summons, how genuine was the esteem of those who knew him best. The rector was with him constantly till the end and administered the last rites of the church shortly before his death. Owing, however, to the interference of friends from a distance, the wish of the deceased, that he should be buried according to the rites of the church, was not respected, though the rector was present at the time of the funeral and signified his willingness to conduct the service as he had been requested to do by Mr. Smith himself on more than one occasion. The moral of this incident will not be hard to draw. We leave the facts for the public to meditate upon. A statement, however, made by one of those responsible for the scene is worthy of record, that if the funeral was not to be conducted according to his views, there would be no service at all.

Otessa, Mission of Morven.

Services have been held in this village by the missionary for sometime past, and his efforts to establish a congregation here have met with good success. Through the recent action of the trustees, however, the school house has been closed against him and no other room being available, he has been forced to undertake the task of building a church in the village. Work will be begun immediately and pushed through with vigor. Nothing makes a church grow faster than a little bigoted opposition.

Parish of Selby.

The great event this week in local church work is the laying of the corner stone of the new church at Robin by Mrs. Wilkison of Napanee. The ceremony will (D.V.) take place on Monday, Nov. 1st at 11 a.m.

Gaspport.

Divine service will be held (D.V.) in St. Jude's church on Sunday the 29th inst. at 8 o'clock.

GENERAL NOTES.

Dr. Liddon, speaking of reverence, says that Burke has shown how various attitudes of the human body correspond to, or are consistent with, deep emotions of the human soul. We cannot, for instance, sit lolling back in an arm chair with our mouths wide open and feel a warm glow of indignation; and if we were introduced suddenly into the presence of the Queen we should not keep our hats on and sit down with our hands in our pockets, on the ground that the genuine sentiment of loyalty is quite independent of its outward expression. And if people come to church and sit and talk and lo k about them while prayers are being addressed to the infinite and eternal Being, it is not because they are so very spiritual as to be able to do without any outward forms. They really do not with the eye of their souls see Him, the sight of whom awakes first the soul and then the body into profound reverence. After all there is nothing very spiritual, as some people seem to think, in the practice of outward irreverence. Church rules on the subject are but the natural outcome of the deep interest of the soul of man when it is confronted by the greatness of its maker and redeemer.

Parish of Camden.

As the incumbent will be away on Sunday next week there will be no service in Napanee Mills, or Centreville, or in the

evening at St. Luke's church, Camden East. Usual services at St. Luke's at 11 a.m. Holy Trinity, Yarker, at 3 p.m. St. John's, Newburgh, at 7 p.m.

On Tuesday evening next being eve of All Saint's day, the Rev. F. T. Dibb will preach in Holy Trinity, Yarker, at 7.30 p.m., and he will celebrate the Holy communion in same church on All Saint's day at 7.30 a.m.

Bath, St. John's Church.

Harvest services of Thanksgiving Sunday morning and evening, 29th Oct. The Rev. Mr. W. H. Barnes, of Tweed, to preach both times. Morning subject, "The Eternal Sunshine." Evening subject, "The Great Harvest of the World." Holy communion 11 a.m., church to be decorated. Procession moves at 11 sharp and 7 sharp. Lennox and Addington Ruri-decanal chapter meets in Bath Thursday and Friday, 2nd and 3rd Nov. Public services on Thursday and Friday at 7 p.m., and on the latter day at 8 a.m. A welcome extended to all. This is the first meeting of the L. and A. Chapter. Nine clergymen should be in attendance and probably will.

—The Teacher's Association of Lennox and Addington is now in session.

—You can buy cow ties, crosscut saws, axes, lanterns, and all kinds of stoves cheaper at BOYLE & SON'S than any other store in town and they have a larger variety to choose from.
